Connecticut Children’s – Pediatric Infectious Disease

Connecticut Children’s Medical Center, a nationally recognized, 187-bed not-for-profit children’s hospital which serves as the primary teaching facility for the University of Connecticut School of Medicine Department of Pediatrics, has an exciting opportunity to join The Division of Infectious Diseases & Immunology. Connecticut Children’s Specialty Group, Inc., a subsidiary of Connecticut Children’s, is a 170 physician, multi-specialty pediatric group (medical and surgical) which provides quality care in Hartford and throughout CT. Our well-established, collegial Division of seven specialists and dedicated Infectious Disease and Immunology APRN has much to offer the enthusiastic and patient-centered physician:

- In this full-time clinical educator role, you will provide care for children and young adult patients on our busy inpatient and outpatient consult service as well as teach and participate in clinical research.
- Opportunities exist for satellite outreach clinics and global health (refugee and/or travel clinic). Our immunodeficiency program includes children with primary immune deficiencies and also a designated AIDS center.
- Members of the Division are part of our well-established and well-published Infection Prevention and Antimicrobial Stewardship committees.
- Connecticut Children’s is committed to the growth of our junior faculty in their development of research pursuits and new initiatives.
- Academic appointment at the Assistant/Associate Professor level at the University of Connecticut. The Division is also home to a 3-year pediatric infectious disease fellowship, as well as a 1-year pediatric infectious disease pharmacy residency.
- As a tertiary referral center, and Level 1 trauma center, Connecticut Children’s Medical Center includes a full range of medical and surgical specialties and is the only free-standing children’s hospital in the state.
- Superb mentorship opportunity for newly trained physicians.
- Candidates for this unique physician opportunity must be BC/BE in pediatric infectious disease.

Connecticut Children’s is an Equal Opportunity Affirmative Action Employer.

Connecticut’s state capital, Hartford, is conveniently situated halfway between New York City and Boston. Here you will enjoy a multitude of historical attractions, a thriving arts and entertainment center, a revitalized riverfront and beautiful parks and public gardens. The Greater Hartford area has many interesting and diverse communities from urban to rural with outstanding public and private school options all within 10 to 30 minutes of Connecticut Children’s. Just a short drive to the shore and bursting with New England charm, there are so many reasons to make Hartford your home!
