McLane Children’s Medical Center
Temple, Texas
Pediatric Infectious Diseases Subspecialty Faculty Physician
Baylor Scott & White (BSW) McLane Children’s Medical Center
(Affiliated with Texas A&M University HSC COM)
Temple, Texas

Baylor Scott & White McLane Children’s Medical Center is seeking a full-time (will consider part-time) BC/BE, fellowship trained Pediatric Infectious Diseases subspecialist to join two physicians in the Section of Pediatric Infectious Diseases, in the Department of Pediatrics with an outstanding Pediatric Residency program. Responsibilities include direct consultation and follow-up care to patients in the inpatient and outpatient settings, and teaching residents/fellows/medical students in our Central Texas area. Current members in our section are involved with patient care, teaching, clinical research, antimicrobial stewardship, infection prevention and administration.

Position Information

• Position is located at our free standing, 112 bed, BSW McLane Children’s Medical Center with 24 hour Children’s ED and trauma center, with 48 private medical/surgical rooms, 16 bed PICU and a 48 bed NICU, and our Pediatric Multi-specialty Clinic in Temple, TX. The level IV NICU is located nearby on the main BSWMC, Temple campus.

• Expected Pediatric Resident, Neonatology Fellows and Medical Student, Pharmacists, Nursing and Physician Extenders’ education at bedside and in formal or informal settings such as core lectures, journal clubs, critical thinking rounds and grand rounds.

• Clinical based position with teaching of residents on the Pedi ID rotation, and if interested, opportunities for clinical research and service on departmental/system committees
