Seeking Candidate for Pediatric Infectious Diseases, Clinical Attending Faculty, Full-Time Position

The section of Infectious Diseases at Phoenix Children’s Hospital in Phoenix, AZ is seeking to recruit a pediatric ID physician to provide clinical care at Phoenix Children’s Hospital and four other community hospitals in the metropolitan Phoenix area.

The successful applicant is expected to be board-certified or board-eligible in pediatric infectious diseases and have a commitment to patient care and trainee education. The applicant has the opportunity to have a clinical faculty title at The University of Arizona College of Medicine, Mayo Clinic- Scottsdale, and/or Creighton University College of Medicine.

The position involves primarily clinical and teaching responsibilities:

- Inpatient pediatric infectious diseases consultation
- Teaching of medical students, residents, and clinical fellows (non-ID Phoenix Children’s Hospital fellows, and visiting Mayo Clinic pediatric and adult ID fellows)

Phoenix Children’s Hospital is a 433-bed, freestanding specialty children’s hospital located in Phoenix, Arizona. The hospital serves a spectrum of patients ranging from general pediatric patients to complex care, hem/onc, solid organ and bone marrow transplant patients from Arizona, surrounding states and northern Mexico.

Interested applicants should call or email for further information:
