The UCLA Mattel Children’s Hospital is recruiting a Pediatric Infectious Disease physician to serve as Associate Medical Director of the Antimicrobial Stewardship program at either the Assistant Professor or Associate Professor level. This position would be full-time and would include clinical, research, and administrative opportunities.

The candidate should have the following experience/qualifications:
- M.D. or D.O.
- Board certification/eligibility in Pediatrics and Pediatric Infectious Diseases
- Eligibility for a California Medical License
- Proven excellence in clinical care and education
- Experience or training in Antimicrobial Stewardship
- Ability to lead a multi-disciplinary team

Clinical duties would include:
- Inpatient consultation services to other subspecialties including neonatal and pediatric intensive care units, oncology, bone marrow transplant, and solid organ transplant
- Outpatient clinic
- Teaching medical students, residents, and fellows

Antibiotic stewardship responsibilities would include:
- Working with the ID pharmacist to develop clinical guidelines for antibiotic use
- Monitoring of inpatient antibiotic use and resistant organisms
- Collaborating with adult ASP medical directors and pharmacists on hospital-wide antibiotic stewardship initiatives
- Contribution to scholarly work

UCLA Mattel Children’s Hospital is a medium sized children’s hospital located in West Los Angeles and is nationally ranked by U.S. News and World Report. Mattel hospital includes both inpatient floors at Santa Monica hospital and Ronald Reagan hospital. The Pediatric Infectious Disease division includes 8 faculty members who are actively engaged in clinical and laboratory-based research, clinical care, and education.

Los Angeles is an exciting city well known for its idyllic weather, sunny beaches, and thriving art scene. Additionally, LA is home to multiple major league sports teams including two men’s basketball, baseball, hockey, and football teams.

Candidates are encouraged to apply online before November 3 at: https://recruit.apo.ucla.edu/JPF04929
