Two Faculty Positions in the Pediatric Infectious Diseases Division
University of Florida College of Medicine
Gainesville, FL

The Department of Pediatrics at the University of Florida College of Medicine is recruiting two additional faculty to the Pediatric Infectious Diseases Division (website: http://pediatrics.med.ufl.edu/about-us/division-listing/infectious-diseases/). If an applicant is interested, the role of Division Chief will be open in the future.

The Pediatric Infectious Diseases Division provides comprehensive infectious disease service at UF Health Shands (inpatient) & UF Health Medical Plaza (outpatient). UF Health Shands Children’s Hospital is a 208 bed facility including pediatric/cardiac/neonatal intensive care units and a pediatric emergency room that provides care in more than 20 pediatric specialties and serves a diverse patient population including a large population with infectious diseases related to bone marrow and solid organ transplants. UF Pediatric Infectious Diseases clinics include a dedicated clinic for children with HIV infection and an opportunity to work with UF Internal Medicine to service a concurrent Pediatric Travel Medicine clinic. UF has a robust Clinical and Translational Science Institute and the Emerging Pathogens Institute and can provide many opportunities for collaborative as well as mentored research for physician-scientists.

The Infectious Diseases Division also provides education for medical students, other health science center students, pediatric residents (51 residents in three years) and fellows (9 fellowships). Consult the Pediatric Department website for additional information about the department. http://pediatrics.med.ufl.edu/

Candidates must have an MD/DO, be board certified/eligible in Pediatrics and Infectious Diseases, and licensed or eligible for licensure in Florida. Please see the following UF website for the advertisement, further descriptions of the position offerings and the online application information/process. (https://jobs.ufl.edu)

If there are any questions about the application process, please contact Melissa S. Watson (email: melissaswatson@peds.ufl.edu)
