Full-time Faculty Position  
University Hospitals Rainbow Babies and Children’s Hospital  
Cleveland, OH

The Department of Pediatrics at University Hospitals Rainbow Babies and Children’s Hospital is seeking a full-time, academic, board-certified or board-eligible faculty member to join the Division of Pediatric Infectious Diseases. The ideal candidate will be expected to spend 50% effort on clinical responsibilities. The other 50% of time will be spent growing our division’s Clinical Trials activities. In addition to research and clinical activities, division members participate in teaching of medical students, residents and fellows.

The Division of Pediatric Infectious Diseases currently has eight faculty members and three fellows. The hospital microbiology lab director and full-time antimicrobial stewardship pharmacist are also active members of the division. Our antimicrobial stewardship program monitors use of all broad-spectrum antimicrobial agents. Our division actively participates in quality and infection control initiatives. Current scientific areas of research include the role of immune activation and inflammation in HIV infected adults and children, the prevention and treatment of metabolic and cardiovascular complications of HIV and its treatment, and the role of naturally acquired immunity in Malaria in children.

Rainbow Babies and Children’s Hospital is a tertiary care center located in Cleveland, Ohio and affiliated with Case Western Reserve University. In 2018-2019, University Hospitals Rainbow Babies & Children’s Hospital earned high recognition in U.S. News & World Report’s Best Children’s Hospitals annual rankings. UH Rainbow ranks among the nation’s top 50 children’s hospitals in 8 medical and surgical specialties including neonatology, pulmonology, diabetes and endocrinology, orthopedics, cancer, urology, nephrology, and gastroenterology and GI surgery. The Division also has a long standing ACGME-approved fellowship program.

An MD degree, completion of fellowship training in Pediatric Infectious Diseases, and board eligibility or board certification required. Faculty rank is expected to be at the Assistant or Associate Professor level, commensurate with experience.

Qualified candidates should send a letter of interest and curriculum vitae to:

Grace McComsey, MD  
Chief, Division of Pediatric Infectious Diseases
